

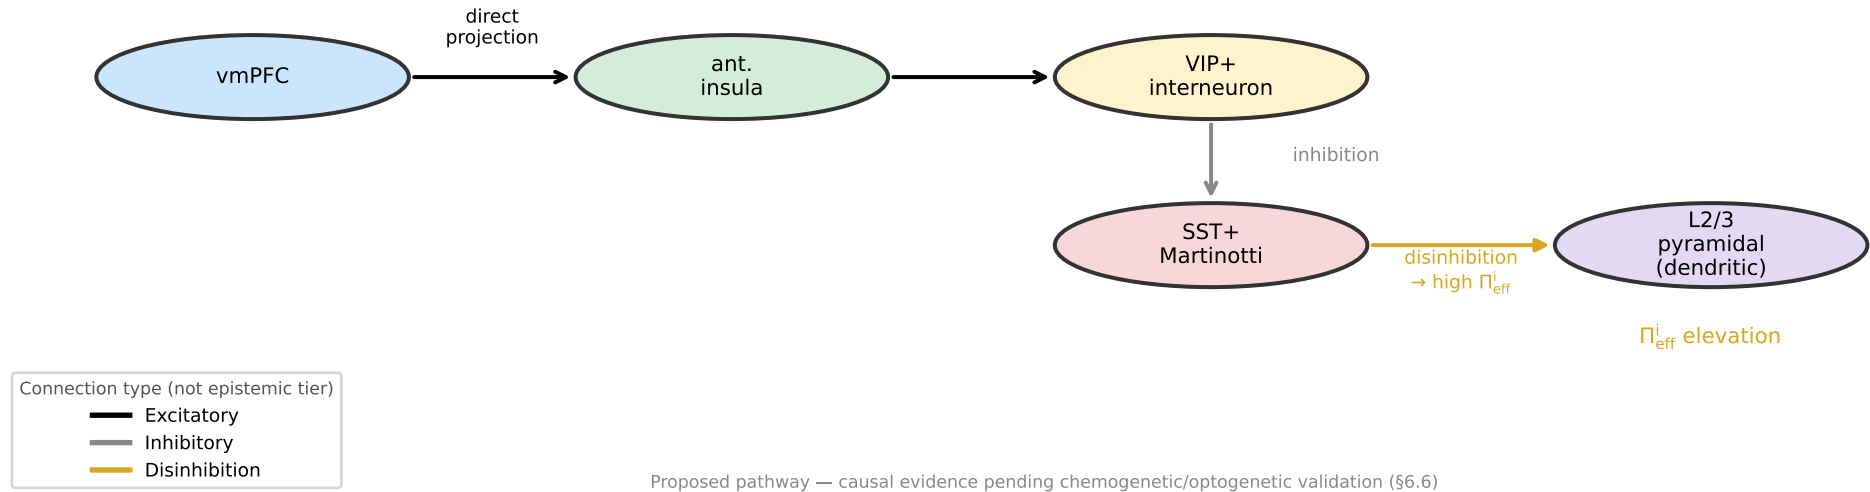

Figure 3 — Proposed Somatic-Marker Disinhibition Circuit (§4.1.2 / §4.2)

A

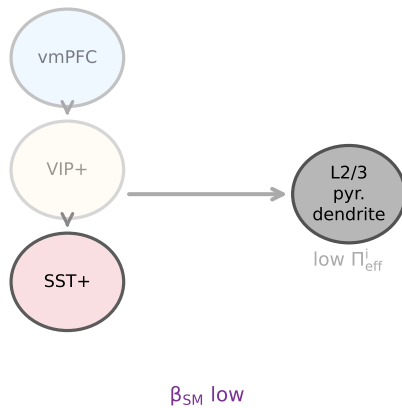

Proposed circuit — vmPFC→insula→VIP+→SST+→L2/3 pyramid
(convergent anatomical evidence; causal validation pending)

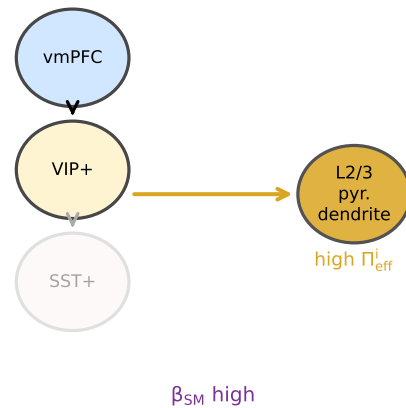

Proposed pathway — causal evidence pending chemogenetic/optogenetic validation (§6.6)

B

Resting state
(β_{SM} low)

Somatic-marker
retrieval (β_{SM} high)

C

L5 thick-tufted pyramidal cell
apical-basal mismatch computation
